As the temperature increases, it may be tempting to leave windows open in order to keep you residence cool when you arrive back home. However, open windows/doors, even with an alarm system are an invitation to criminals to enter your home and remove your valuables. Lock and secure your residences each and every time you leave.

As it relates to thefts, of the 4, 2 involved items that were left unattended and subsequently taken. In the 2 remaining incidents, property was taken from the victim's yards. Please be sure that if packages are being delivered, someone will be able to collect them so they are safe. Additionally, just because your valuables are in a yard does not mean they are absolutely safe. secure all valuables in a locked structure.

2 of the vehicle crimes involved stolen vehicles. Of these 2, 1 was a recovered, previously stolen vehicle. 2 additional; vehicles were broken into. Of these, 1 was a window smash. The other incident possible involved a vehicle that was left unsecured.
